

STAKEHOLDER ANALYSIS – SCHOOL MANAGEMENT SYSTEM

1. Stakeholder Identification

- School Administrator (Principal)
- Teachers
- Parents
- Students
- Finance Officer
- IT Support (Future role)
-

2. Stakeholder Analysis:

Stakeholder	Role in System	Interest Level	Influence Level	Key Pain Points	Needs / Expectations
School Administrator	Oversees school operations and decision-making	High	High	Scattered data, poor reporting, inefficiency	Centralized dashboard, accurate reports, better control
Teachers	Manage attendance, grading, and student records	High	Medium	Time-consuming manual tasks, repetitive data entry	Easy-to-use system, quick attendance & grading tools
Parents	Monitor child's academic performance and school updates	Medium	Low	Lack of visibility, delayed communication	Real-time updates, notifications, transparency
Students	Access results and academic information	Medium	Low	Limited access to performance data	Easy access to grades and schedules
Finance Officer (Bursar)	Manages fees and financial records	High	Medium	Manual fee tracking, errors, lack of transparency	Automated payment tracking, accurate financial records
IT Support (Future Role)	Maintain and support system post-implementation	Medium	Medium	Note: Not part of current manual system but required after system deployment	Reliable, easy-to-maintain system

3. Key Stakeholder Insights:

- **Administrators:** These are the primary **decision-makers**; If they don't see value, the system fails.
- **Teachers:** **These are the main users**; if the system is complex, adoption will fail.
- **Parents:** They drive **accountability and satisfaction**; their visibility increases trust in the school.
- **Finance officers:** They ensure **revenue tracking** which is very critical for school sustainability.
- **Students:** They drive **usage and adoption success**, even though they don't influence system decisions.
- **IT Support** ensures the **sustainability and reliability** of the system post-implementation.

4. Power vs Interest Grid

High Power – High Interest (Manage Closely)

- School Administrator

Low Power – High Interest (Keep Engaged))

- Teachers
- Finance Officer

Low Power – Low/Medium Interest (Keep Informed)

- Parents
- Students

Medium Power – Medium Interest (Monitor)

- IT Support

5. Stakeholder Engagement Strategy

STAKEHOLDER	ENGAGEMENT APPROACH
Admin	Regular progress updates, decision- making meetings
Teachers	Feedback sessions, usability testing
Parents	Notifications, communication updates
Finance Officer	Requirement validation for payment features
IT Support	Technical discussions, System training
