

STAKEHOLDER ANALYSIS

1.1: STAKEHOLDER'S IDENTIFICATION:

Stakeholder	Role	Interest in Project
Bakery Owner	Business owner and primary decision-maker	High
Bakery Staff	Daily users for order preparation and inventory updates	High
Customers	End users placing orders online	Medium–High
App Developer	Builds and maintains the application	High
Business Analyst (You)	Requirements gathering and solution definition	High
Hosting / IT Support Provider	Ensures app availability and uptime	Medium
Delivery Partner (Future)	Order fulfillment (if delivery is added later)	Low

1.2: INFULENCE LEVEL

High Power – High Interest (Manage Closely)

- a) Bakery Owner:
 - Approves budget, scope, and timelines
 - Defines business priorities and success criteria

High Interest – Low Power (Keep Engaged)

- a) Bakery Staff:
 - Use the system daily
 - Provide feedback on usability and workflow
- b) App Developer:
 - Needs clear requirements and timely feedback

Low Interest – High Power (Keep Satisfied)

- a) Hosting / IT Support Provider
 - Controls system availability and performance

Low Power – Low Interest (Monitor)

- a) Delivery Partner (Future)
 - Not critical during initial release
 - May be engaged in later phases

1.3: COMMUNICATION PREFERENCES:

STAKEHOLDER	COMMUNICATION PLAN	FREQUENCY
Bakery Owner	Meetings / status updates	Weekly
Bakery Staff	Demos / feedback sessions	Bi-weekly
Customers	App notifications (post-launch)	As needed
App Developer	Calls / documentation	Weekly

1.4 STAKEHOLDER RISK AND MITIGATIONS:

Risk	Affected Stakeholder Mitigation	
Resistance to change	Bakery Staff	Training and phased adoption
Scope creep	Bakery Owner	Clear scope definition
Misunderstood requirements	Developer	Detailed documentation and reviews
Low customer adoption	Customers	Simple UI and in-store promotion
