

MEETING NOTES – REQUIREMENTS GATHERING SESSION

Project: School Management System Implementation

Date: 15 March 2026

Time: 10:00 AM – 11:30 AM

Location: Greenwood Secondary School

Facilitator: Jennifer Francis-Nkpornwi (Business Analyst)

ATTENDEES

Name	Role
Mrs. Adebayo	School Administrator
Mr. Johnson	Finance Officer
Mrs. Williams	Teacher
Mr. Okafor	Principal
Jennifer Francis-Nkpornwi	Facilitator

MEETING OBJECTIVE

To understand the current processes for student registration, fee management, attendance tracking, result management, and parent communication, identify operational challenges, and gather requirements for a proposed School Management System.

DISCUSSION SUMMARY

STUDENT REGISTRATION

Current Process

- Student information is captured using paper admission forms.
- Administrative staff manually enter student details into registers and spreadsheets.
- Student IDs are assigned manually.

Pain Points Identified

- Incomplete and illegible admission forms.
- Duplicate student records.
- Time-consuming registration process.

- Difficulty retrieving historical student records.
- Risk of duplicate Student IDs.

Requirements Gathered

- Electronic student registration.
- Automatic Student ID generation.
- Centralized student database.
- Duplicate record validation.

FEE MANAGEMENT

Current Process

- Parents pay fees through cash deposits or bank transfers.
- Finance staff manually verify payments.
- Receipts are handwritten.
- Fee balances are tracked in spreadsheets.

Pain Points Identified

- Delayed payment verification.
- Manual reconciliation effort.
- Lost or damaged receipts.
- Difficulty tracking outstanding balances.

Requirements Gathered

- Electronic payment recording.
- Automated receipt generation.
- Payment verification workflow.
- Fee balance tracking and reporting.

ATTENDANCE MANAGEMENT

Current Process

- Teachers record attendance using paper registers.
- Attendance summaries are prepared manually.
- Attendance reports are submitted to administration on request.

Pain Points Identified

- Time-consuming attendance reporting.
- Missing or inaccurate attendance records.
- Delays in identifying absenteeism.
- Difficulty generating attendance statistics.

Requirements Gathered

- Electronic attendance recording.
- Attendance reporting by class and date.
- Automated attendance summaries.
- Parent absence notifications.

RESULT MANAGEMENT

Current Process

- Teachers record scores in spreadsheets.
- Grades are calculated manually.
- Results are reviewed and approved manually.
- Report cards are printed and distributed to parents.

Pain Points Identified

- Calculation errors.
- Delays in result preparation.
- Lack of result approval controls.
- Time-consuming report generation.

Requirements Gathered

- Electronic score entry.
- Automatic grade calculation.
- Result approval workflow.
- Digital result publication.

PARENT COMMUNICATION

Current Process

- Communication is performed through phone calls, SMS, and printed notices.
- Notifications are sent manually.

Pain Points Identified

- Inconsistent communication.
- Delayed notification delivery.
- High administrative effort.

Requirements Gathered

- Automated notifications.
- Attendance alerts.
- Fee reminders.
- Result publication notifications.

Key Decisions

1. The proposed solution will be a centralized School Management System.
2. Student Registration, Fee Management, Attendance Management, Result Management, and Parent Communication were confirmed as the initial project scope.
3. Automated notifications will be included in the solution.
4. Role-based access will be required for administrators, teachers, and finance staff.

ACTION ITEMS

Action Item	Owner
Document current-state processes	Jennifer Francis-Nkporwi (Business Analyst)
Perform gap analysis	Jennifer Francis-Nkporwi (Business Analyst)
Prepare functional requirements	Jennifer Francis-Nkporwi (Business Analyst)
Review requirements document	Project Stakeholders

MEETING OUTCOME

Stakeholders agreed that the current manual processes are inefficient and prone to errors.

A centralized School Management System was approved as the preferred solution to improve operational efficiency, data accuracy, reporting capabilities, and communication with parents.
